Tips and Tricks: Drilling into the Alternate Fund Hierarchy

1. There are members in the primary and alternate hierarchies that are shared, and Smart View may not let you drill below these shared members in the Alternate Hierarchy. The shared members include **Unrestricted**, Restricted **Gift Funds**, and **Restricted Endowments and FFEs Funds**.

2. If you are unable to zoom into the Alternate Hierarchy, remove the last Alternate Hierarchy member you zoomed in on by placing your cursor on the member, and navigating to the Essbase Ribbon and choosing **Remove Only**.
