

CalPlanning: Enabling Reporting POV Preview

To automatically display the POV Preview Box when running a report from the CalPlan, CalRptg and HCP Rptg repositories, you will need to set your preference:

1. From the CalPlanning menu, select **File \ Preferences**
2. From the Preferences left-hand navigation pane, select **Financial Reporting**
3. From the User Point of View section, select **On**
4. Click **OK**
5. **Log off** of the CalPlanning Workspace and log back on to apply the setting

Once enabled the POV Preview setting will persist.
